

Milline on sinu suguvõsa?

What's your extended family like?

Krista: Minu suguvõsaga on selline huvitav lugu, et minu emal on kaksikõde. Nad on hästi sarnased. Ja minu isal oli kaksikvend, nad olid hästi sarnased. Ja siis ma arvasin terve elu, et mina saan ka kaksikud. Aga mul ei ole kaksikuid. Võib-olla mu lapselapsed tulevad kaksikud. Ja minu tädil, minu ema kaksikõel, on poeg, kelle naine on kaksik, ja nendel on ka kaksikud lapsed, poiss ja tüdruk. Nii et selline kaksikute suguvõsa on meil.

There is an interesting thing with my family, that my mother has a twin sister. They are very similar. And my father had a twin brother, they were very similar. And then I thought all my life that I will have twins, too. But I don't have twins. Maybe my grandchildren will be twins. And my aunt, my mom's twin sister, has a son whose wife is a twin herself, and they also have twin children, a boy and a girl. So such is this family of twins we have.

Ingrid: Lapselapsi on mul ka. Mu tütrele on kolm last, mu vanemal pojale on kaks last ja mu nooremal pojale on kolm tütart. Ja minu lastelastel on ka juba lapsed. Tütretütar sai kohe kaksikud! Tütrepoele sai kohe kolmikud! Ja siis mu kolmas tütretütar ütles, et tema ei julgegi lapsi saada, et äkki temale tuleb neli last. Aga ei, ta sai siiski alguses ühe lapse ja pärast sai veel teise.

I also have grandchildren. My daughter has three children, my older son has two children and my younger son has three daughters. And my grandchildren have also already children. So I am very proud! I have, to be honest, very good grandchildren I have. My daughter's daughter had twins right away! My daughter's son had triplets! And then my third daughter's daughter said that she won't dare to have children, because maybe she will have four children. But no, she had one child in the beginning and later she had one more.
