

Mida sa teed talvel?

What do you do in the winter?

Piret: Näiteks eile läksin ma pärast tööd suusatama. Sest praegu on väga palju lund. Ja kui talvel lund on, siis tuleb kohe minna! Ehk siis talvel on kõik talvealad, suusatamine, uisutamine ja siis, kui lund ei ole, siis on jooksmine, ujumine, rattasõit, tennis.

Well for instance yesterday I went skiing after work. Because now there's a lot of snow. And when there is snow in winter, then one has to go right away! So in winter it is all the winter sports, skiing, skating, and when there's no snow, then there's running, swimming, biking and tennis.

Ott: Talvel ma tegelen mäesuusatamisega. See on ka üks minu suur hobi.

I downhill ski in the winter. That's also one of my great hobbies.

Johannes: Mis ma talvel teen? Tavaliselt viibin talvel siseruumides. Mulle meeldib väga talvel käia saunas ja siis hüpata jääauku. Seda ma teen harva, aga meelsasti.

What do I do in the winter? Usually I stay indoors in winter. I really like going to the sauna in the winter and then jump into a hole in ice. This I do seldom, yet with pleasure.
